## Education and Training

---

**Stanford University, United States**, Postdoctoral Fellow 09/2019 - present  
Topic: Carbon Cycling in Soils: Effects of Mineral Redox Reactivity on Anaerobic Microbial Respiration  
Advisor: Prof. Dr. S. Fendorf

**ETH Zürich, Switzerland**, Doctor of Sciences 01/2015 - 12/2018  
Dissertation: Assessing the Control of Reduction Thermodynamics on Electron Transfer to Iron (Oxyhydr-)Oxides (Diss. Nr. 25'699)  
Defense date: 07.12.2018  
Advisor: Dr. T.B. Hofstetter  
Committee: Dr. M. Sander, Dr. A. Voegelin, Prof. Dr. K. McNeill, Prof. Dr. J. Peña

**ETH Zürich, Switzerland**, M.Sc. in Environmental Sciences 09/2012 - 01/2015  
Concentration: Biogeochemistry and Pollutant Dynamics  
Thesis: Interactions of Bacteriophages with Natural Organic Matter and Model Sorbent Surfaces  
Advisor: Dr. M. Sander

**ETH Zürich, Switzerland**, B.Sc. in Environmental Sciences 09/2009 - 10/2012  
Thesis: Soil Structure of an Alpine Fen and Its Implications on Below-Ground Methane Concentrations  
Advisor: Prof. Dr. J. Zeyer

**London Music School, England**, Diploma in Music Performance and Production 04/2009 - 09/2009  
Concentration: Piano and Vocals

## Research Experience

---

**Stanford University, United States**, Postdoctoral Fellow in Soil and Environmental Biogeochemistry 09/2019 - present  
Linked carbon dioxide production during anaerobic microbial respiration to mineral redox reactivity in floodplain soils.

**ETH Zürich, Switzerland**, Field Researcher in Environmental Chemistry 07/2019  
Quantified electron donating properties of particulate organic matter using a push-pull approach in wetlands near Filipstad, Sweden.

**Eawag, Switzerland**, Research Assistant in Environmental Chemistry 01/2019 - 06/2019  
Adapted procedure to analyze compound specific stable isotope data for nitroaromatic explosives.

**Eawag and ETH Zürich, Switzerland**, Doctoral Candidate in Environmental Chemistry 01/2015 - 12/2018  
Developed mediated electrochemical approach to characterize redox properties of iron oxides; linked rates and extents of iron oxide reduction to thermodynamic driving force of reaction; quantified changes in redox reactivity of iron oxides during abiotic and microbially mediated iron oxide transformations.

**ETH Zürich, Switzerland**, Graduate Researcher in Environmental Chemistry 09/2013 - 04/2014  
Quantified bacteriophage adsorption to natural organic matter and model sorbent surfaces using quartz crystal microbalance with dissipation monitoring.

- ETH Zürich, Switzerland**, Research Assistant in Environmental Microbiology 06/2012 - 08/2012  
Analyzed methane production in wetland soil incubations.
- ETH Zürich, Switzerland**, Undergraduate Researcher in Environmental Microbiology 02/2012 - 06/2012  
Collected wetland soil cores and quantified leaf, moss, and root surface areas along core depths.

## Honors

---

- Early Postdoc Mobility Fellowship** 09/2019 - 02/2021  
Fellowship for postdoctoral research at Stanford University; sponsored by the *Swiss National Science Foundation*; CHF 120'000.
- Rising Environmental Leaders Program** 01/2020 - 06/2020  
Run by the *Stanford Woods Institute for the Environment*; aimed at honing participant's leadership and communication skills to maximize their research impact and connect research to policy and people; one of 20 participants selected from a field of applicants from all seven schools at Stanford.
- ETH Medal for Outstanding Doctoral Thesis** 09/2019  
Awarded for "solving important knowledge gaps in the redox reactivity of iron using an interdisciplinary approach". ETH Zürich awards the medal and CHF 2'000 to the top 8% of doctoral candidates.
- Chemistry Travel Award** 05/2017  
Travel award for the attendance of *Goldschmidt Conference 2017*; sponsored by the *Swiss Chemical Society* and *Platform Chemistry* of the *Swiss Academy of Sciences*; CHF 1'000.

## Invited Talks

---

Exploring Mechanisms of Soil Organic Carbon Stabilization by Tracking Electron Flows in Soils. Virtual Public Lecture, *Technical University of Munich*, **2021**.

Tracking Electrons in Soils: How Electro-Active Minerals Affect Soil Carbon Turnover. Virtual Public Lecture, *Swiss Federal Institute of Technology Lausanne*, **2020**.

Follow the Electrons: How Redox-Active Minerals Affect Soil Carbon. Virtual Seminar, *University of California, Davis*, **2020**.

Redox Reactions In the Environment: What Can We Learn From Mediated Electrochemical Analyses? Virtual Seminar, *Indiana University-Purdue University Indianapolis*, **2020**.

## Conference Presentations

---

Organic Matter Mineralization in Redox-Dynamic Environments: How Does the Redox Reactivity of Particulate Electron Acceptors Affect Microbial Respiration Rates? Oral presentation, virtually delivered. *Virtual Goldschmidt Conference*, **2021**.

Soil Organic Matter Stabilization in Floodplain Soils: Role of Particulate Terminal Electron Acceptors. Poster presentation. *American Geophysical Union Fall 2020 Virtual Meeting*, **2020**.

Is Carbon Mineralization In Floodplains Controlled by the Redox Reactivity of Iron Minerals? Oral presentation, virtually delivered. *American Chemical Society Fall 2020 Virtual Meeting*, **2020**.

How Does the Redox Reactivity of Iron Minerals Affect Carbon Mineralization in Floodplains? Oral presentation, virtually delivered. *Virtual Goldschmidt Conference*, **2020**.

Mediated Electrochemical Reduction of Iron (Oxyhydr-)Oxides under Defined Thermodynamic Boundary Conditions. Poster presentation. *Gordon Research Conferences on Environmental Science: Water*, Plymouth, New Hampshire, United States, **2018**.

Ferrous Iron-Induced Transformation of Ferrihydrite: Linking Changes in Oxide Mineralogy and Reducibility. Oral presentation. *Interfaces Against Pollution Conference*, La Grande-Motte, France, **2018**.

Investigating Iron Oxide Reduction Using Mediated Electrochemical Analysis. Oral presentation. *Goldschmidt Conference*, Paris, France, **2017**.

Investigating Iron Oxide Reduction Using Mediated Electrochemical Analysis. Oral presentation. *International Conference on the Biogeochemistry of Trace Elements*, Zürich, Switzerland, **2017**.

Thermodynamics of Electron Transfer to Iron Oxides Assessed by Mediated Electrochemical Reduction. Oral presentation. *Swiss Geoscience Meeting*, Geneva, Switzerland, **2016**.

Mediated Electrochemical Reduction of Iron Oxides: Effects of pH and Potential on Electron Transfer to the Oxides. Oral presentation. *European Mineralogical Conference*, Rimini, Italy, **2016**.

## Teaching Experience and Training

---

<b>Stanford University, United States</b> , Postdoc Teaching Certificate	10/2020
Comprises teaching training, elective courses and workshops, teaching practice, and teaching portfolio (minimum in-class time: 100 h).	

<b>Stanford University, United States</b> , Lecturer	10/2020
Postdoc Journal Club on Pedagogical Approaches to Doctoral Supervision, one hour seminar.	

<b>Stanford University, United States</b> , Lecturer	10/2020
SkillShare Stanford Earth on Electronic Lab Notebooks, one hour seminar.	
<b>Indiana University-Purdue University Indianapolis, United States</b> , Lecturer	09/2020
Advanced Geology Seminar (GEOL-G 690), two hour seminar.	
<b>ETH Zürich, Switzerland</b> , Teaching Assistant	01/2015 - 12/2018
Laboratory Course: Elementary Chemical Techniques (529-0030-00L), yearly three week intensive course.	
<b>ETH Zürich, Switzerland</b> , Teaching Assistant	09/2011 - 09/2012
Exercises in Mathematics III: Systems Analysis (701-0071-00L), weekly classes.	

## Mentoring Experience

---

Mentor at <i>Goldschmidt Conference</i>	07/2021
Supported mentees before, during and after the conference by introducing them to conference objectives and connecting them with scientists in their field.	
Supervisor of Research Assistant	05/2021 - 07/2021
Trained undergraduate research assistant in the laboratory.	
Mentor in the <i>Association for Women in Science</i>	09/2019 - 09/2020
Provided professional and personal support for undergraduate mentees.	
Mentor at <i>Goldschmidt Conference</i>	06/2020
Supported mentees before, during and after the conference by introducing them to conference objectives and connecting them with scientists in their field.	
Supervisor of Research Assistant	06/2018 - 08/2018
Trained research assistant in the laboratory and designed experimental work.	
Supervisor of Undergraduate Student	02/2018 - 06/2018
Thesis (S. Giroud): Kinetics and Thermodynamics of Electron Transfer from Reduced Electron Transfer Shuttles to Iron Oxides.	
Supervisor of Graduate Student	09/2017 - 04/2018
Thesis (S. Vranic): Iron Oxide Phase Transformations during Microbial Reduction of Ferrihydrite.	

## Outreach and Service Activities

---

Convener at <i>Goldschmidt Conference</i>	07/2021
Convener of Session 11g (Theme 11): Redox-Driven Transformation and Mobility of Contaminants and Nutrients.	
Convener at <i>American Geophysical Union Fall Meeting</i>	12/2020
Convener of Symposium 103775: Soils of the Anthropocene: Ecosystem Scale Implications of Pore-Scale Redox Heterogeneities in Soils.	
Convener at <i>Goldschmidt Conference</i>	06/2020
Convener of Session 12b: Coupled Redox Cycling of S, Mn, and Fe: Impacts on Nutrient and Contaminant Dynamics.	
Media Coverage of Field Research in Sweden, <i>ETH Globe Magazine</i>	09/2019
Rüegg, P. <a href="#">Waiting for Oxygen</a> . <i>ETH Globe magazine</i> , <b>2019</b> , 3, 36-41.	

Reviewer 06/2019 - present  
For *Applied and Environmental Microbiology*, *Applied Geochemistry*, *Environmental Science & Technology*,  
*Environmental Science: Processes & Impacts*, *Nature Reviews Earth & Environment*. Complete list on [Publons](#).

Scientifica Research Fair, ETH Zürich and University of Zürich 09/2017  
Designed and presented exhibition booth on the degradation of plastics in the environment.

## Languages
