## Education and Training

---

**Stanford University, United States**, Postdoctoral Fellow 09/2019 - present

Topic: Carbon Cycling in Soils: Effects of Mineral Redox Reactivity on Anaerobic Microbial Respiration

Advisor: Prof. Dr. S. Fendorf

**ETH Zürich, Switzerland**, Doctor of Sciences 01/2015 - 12/2018

Dissertation: Assessing the Control of Reduction Thermodynamics on Electron Transfer to Iron (Oxyhydr-)Oxides (Diss. Nr. 25'699)

Advisor: Dr. T.B. Hofstetter

Committee: Dr. M. Sander, Dr. A. Voegelin, Prof. Dr. K. McNeill, Prof. Dr. J. Peña

**ETH Zürich, Switzerland**, M.Sc. in Environmental Sciences 09/2012 - 01/2015

Concentration: Biogeochemistry and Pollutant Dynamics

Thesis: Interactions of Bacteriophages with Natural Organic Matter and Model Sorbent Surfaces

Advisor: Dr. M. Sander

**ETH Zürich, Switzerland**, B.Sc. in Environmental Sciences 09/2009 - 10/2012

Thesis: Soil Structure of an Alpine Fen and Its Implications on Below-Ground Methane

Concentrations

Advisor: Prof. Dr. J. Zeyer

**London Music School, England**, Diploma in Music Performance and Production 04/2009 - 09/2009

Concentration: Piano and Vocals

## Research Experience

---

**Stanford University, United States**, Postdoctoral Fellow in Soil and Environmental Biogeochemistry 09/2019 - present

Linked carbon dioxide production during anaerobic microbial respiration to mineral redox reactivity in floodplain soils.

**ETH Zürich, Switzerland**, Field Researcher in Environmental Chemistry 07/2019

Quantified electron donating properties of particulate organic matter using a push-pull approach in wetlands near Filipstad, Sweden.

**Eawag, Switzerland**, Research Assistant in Environmental Chemistry 01/2019 - 06/2019  
Adapted procedure to analyze compound specific stable isotope data for nitroaromatic explosives.

**Eawag and ETH Zürich, Switzerland**, Doctoral Candidate in Environmental Chemistry 01/2015 - 12/2018  
Developed mediated electrochemical approach to characterize redox properties of iron oxides; linked rates and extents of iron oxide reduction to thermodynamic driving force of reaction; quantified changes in redox reactivity of iron oxides during abiotic and microbially mediated iron oxide transformations.

**ETH Zürich, Switzerland**, Graduate Researcher in Environmental Chemistry 09/2013 - 04/2014  
Quantified bacteriophage adsorption to natural organic matter and model sorbent surfaces using quartz crystal microbalance with dissipation monitoring.

**ETH Zürich, Switzerland**, Research Assistant in Environmental Microbiology 06/2012 - 08/2012  
Analyzed methane production in wetland soil incubations.

**ETH Zürich, Switzerland**, Undergraduate Researcher in Environmental Microbiology 02/2012 - 06/2012  
Collected wetland soil cores and quantified leaf, moss, and root surface areas along core depths.

## Honors

---

**Early Postdoc Mobility Fellowship** 09/2019 - 02/2021  
Fellowship for postdoctoral research at Stanford University; sponsored by the *Swiss National Science Foundation*; CHF 120'000.

**Rising Environmental Leaders Program** 01/2020 - 06/2020  
Run by the *Stanford Woods Institute for the Environment*; aimed at honing participant's leadership and communication skills to maximize their research impact and connect research to policy and people; one of 20 participants selected from a field of applicants from all seven schools at Stanford.

**ETH Medal for Outstanding Doctoral Thesis** 09/2019  
Awarded for "solving important knowledge gaps in the redox reactivity of iron using an interdisciplinary approach". ETH Zürich awards the medal and CHF 2'000 to the top 8% of doctoral candidates.

**Chemistry Travel Award** 05/2017  
Travel award for the attendance of *Goldschmidt Conference* 2017; sponsored by the *Swiss Chemical Society* and *Platform Chemistry* of the *Swiss Academy of Sciences*; CHF 1'000.

## Peer-Reviewed Publications

## Manuscripts in Preparation

---

**Aeppli, M**; Giroud, S; Vranic, S; Voegelin, A; Hofstetter, TB; Sander, M. Reduction of Ferric Iron Oxides by Electron Transfer Shuttles: Reconciling Rates with Thermodynamics.

## Invited Talks

---

Tracking Electrons in Soils: How Electro-Active Minerals Affect Soil Carbon Turnover. Virtual Public Lecture, *Swiss Federal Institute of Technology Lausanne*, **2020**.

Follow the Electrons: How Redox-Active Minerals Affect Soil Carbon. Virtual Seminar, *University of California, Davis*, **2020**.

Redox Reactions In the Environment: What Can We Learn From Mediated Electrochemical Analyses? Virtual Seminar, *Indiana University-Purdue University Indianapolis*, **2020**.

## Conference Presentations

---

Is Carbon Mineralization In Floodplains Controlled by the Redox Reactivity of Iron Minerals? Oral presentation, virtually delivered. *American Chemical Society Fall 2020 Virtual Meeting*, **2020**.

How Does the Redox Reactivity of Iron Minerals Affect Carbon Mineralization in Floodplains? Oral presentation, virtually delivered. *Virtual Goldschmidt Conference*, **2020**.

Mediated Electrochemical Reduction of Iron (Oxyhydr-)Oxides under Defined Thermodynamic Boundary Conditions. Poster presentation. *Gordon Research Conferences on Environmental Science: Water*, Plymouth, New Hampshire, United States, **2018**.

Ferrous Iron-Induced Transformation of Ferrihydrite: Linking Changes in Oxide Mineralogy and Reducibility. Oral presentation. *Interfaces Against Pollution Conference*, La Grande-Motte, France, **2018**.

Investigating Iron Oxide Reduction Using Mediated Electrochemical Analysis. Oral presentation. *Goldschmidt Conference*, Paris, France, **2017**.

Investigating Iron Oxide Reduction Using Mediated Electrochemical Analysis. Oral presentation. *International Conference on the Biogeochemistry of Trace Elements*, Zürich, Switzerland, **2017**.

Thermodynamics of Electron Transfer to Iron Oxides Assessed by Mediated Electrochemical Reduction. Oral presentation. *Swiss Geoscience Meeting*, Geneva, Switzerland, **2016**.

Mediated Electrochemical Reduction of Iron Oxides: Effects of pH and Potential on Electron Transfer to the Oxides. Oral presentation. *European Mineralogical Conference*, Rimini, Italy, **2016**.

## Teaching Experience and Training

---

**Stanford University, United States**, Postdoc Teaching Certificate 10/2020  
Comprises teaching training, elective courses and workshops, teaching practice, and teaching portfolio (minimum in-class time: 100 h).

**Stanford University, United States**, Lecturer 10/2020  
Postdoc Journal Club on Pedagogical Approaches to Doctoral Supervision, one hour seminar.

**Stanford University, United States**, Lecturer 10/2020  
SkillShare Stanford Earth on Electronic Lab Notebooks, one hour seminar.

**Indiana University-Purdue University Indianapolis, United States**, Lecturer 09/2020  
Advanced Geology Seminar (GEOL-G 690), two hour seminar.

**ETH Zürich, Switzerland**, Teaching Assistant 01/2015 - 12/2018  
Laboratory Course: Elementary Chemical Techniques (529-0030-00L), yearly three week intensive course.

**ETH Zürich, Switzerland**, Teaching Assistant 09/2011 - 09/2012  
Exercises in Mathematics III: Systems Analysis (701-0071-00L), weekly classes.

## Mentoring Experience

---

Mentor in the *Association for Women in Science* 09/2019 - present  
Provided professional and personal support for undergraduate mentees.

- Mentor at *Goldschmidt Conference* 06/2020  
Supported mentees before, during and after the conference by introducing them to conference objectives and connecting them with scientists in their field.
- Supervisor of Research Assistant 06/2018 - 08/2018  
Trained research assistant in the laboratory and designed experimental work.
- Supervisor of Undergraduate Student 02/2018 - 06/2018  
Thesis (S. Giroud): Kinetics and Thermodynamics of Electron Transfer from Reduced Electron Transfer Shuttles to Iron Oxides.
- Supervisor of Graduate Student 09/2017 - 04/2018  
Thesis (S. Vranic): Iron Oxide Phase Transformations during Microbial Reduction of Ferrihydrite.

## Outreach and Service Activities

---

- Convener at *American Geophysical Union Fall Meeting* expected 12/2020  
Convener of Symposium 103775: Soils of the Anthropocene: Ecosystem Scale Implications of Pore-Scale Redox Heterogeneities in Soils.
- Convener at *Goldschmidt Conference* 06/2020  
Convener of Session 12b: Coupled Redox Cycling of S, Mn, and Fe: Impacts on Nutrient and Contaminant Dynamics.
- Media Coverage of Field Research in Sweden, *ETH Globe Magazine* 09/2019  
Rüegg, P. [Waiting for Oxygen](#). *ETH Globe magazine*, **2019**, 3, 36-41.
- Reviewer 06/2019 - present  
For *Environmental Science & Technology*, *Environmental Science: Processes & Impacts*, *Applied and Environmental Microbiology*, *Nature Reviews Earth & Environment*. Complete list on [Publons](#).
- Scientifica Research Fair, ETH Zürich and University of Zürich 09/2017  
Designed and presented exhibition booth on the degradation of plastics in the environment.

## Languages

---

German: native  
English: fluent (CEFR level C2)  
French: very good command (CEFR level B2)  
Spanish: working knowledge (CEFR level A2)
